

Look at your feet!

Look down, and the chances are your shoes, the carpet you're standing on and the building you're in have all been made possible through the skills of engineers.

From September 2008, 14 to 19 year olds in Lambeth and Southwark have a new opportunity to study for one of the most exciting careers in the world. The new Diploma in Engineering is a two-year course, developed with colleges, universities and employers that offers young people lots of new choices about their future.

If you're aged 14 to 19, or the parent/carer of someone of that age, contact one of the schools or colleges offering the Diploma in Engineering below or go to www.raeng.org.uk/diploma for more information.

Look at your feet – then look to your future!

Make some noise!

Make some noise, and the chances are, whether it's your mobile phone, DVD or MP3 player, it's been made possible through the skills of engineers.
